

INSURANCE FAST FACTS

Is PQ In Network?

No. PQ Is not in Network with any insurance providers

Is Insurance Coverage Available?

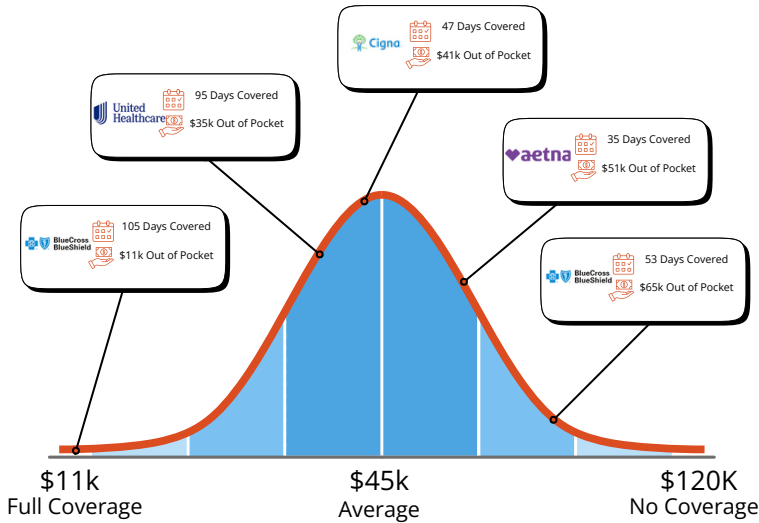

Yes! Many families are able to significantly reduce the out of pocket cost through insurance coverage.

How much will be covered?

There's no way to tell in advance, and coverage is determined by your plan based on medical necessity, and policy limitations. On average, we find between 45 and 60 days of coverage for our 90 day program.

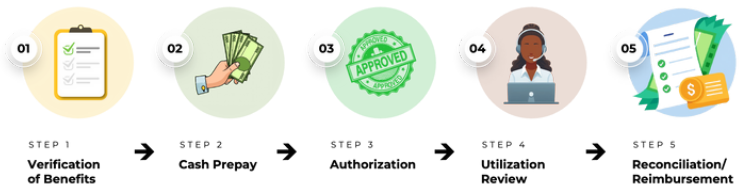

What will my out of pocket cost be?

Because every case is different, it's impossible to predict this in advance. In a review of cases from 2024, the average out of pocket cost to families with a billable insurance plan (one with out of network benefits) was \$45,000

How does it work?

PQ partners with a 3rd party billing group that handles nearly everything! They'll complete a VOB, submit claims and perform utilization reviews and appeals.
